FOREWORD

This Municipal Handbook is compiled annually under the direction of the City Council, to furnish the citizens of Toronto, and others, with official information relative to the administration of the City. It is presented in the hope that its perusal may stimulate and encourage the citizens generally to take a greater interest in the communal life of their City and in good municipal government, which, in the last analysis, is the basis of sound democratic government.

J. W. SOMERS, O.B.E.,
City Clerk.

"Industry—Intelligence—Integrity"

ARMS OF THE CITY OF TORONTO
Heraldically Described

SHIELD—Quarterly of four. 1. Gules, three Lions passant, gardant in pale, Or; 2. Or a Beaver, ppr. 3. Argent, a garb, proper. 4. Azure, a Steamboat, Or.
CREST—On a Mural Crown, Or, a Beaver, proper.

SUPPORTERS—*Dexter*, a North American Indian, habited and armed; in the belt a scalping knife; in the right hand a tomahawk, the left arm leaning on a bow; all proper. *Sinister*, Britannia, helmed and cuirassed; the right hand supporting a trident, the left hand resting on a shield bearing the crosses of St. George, St. Patrick, and St. Andrew, combined; all proper.

MOTTO—Industry, Intelligence, Integrity.

The Government of the City is carried on under the provisions of The Municipal Act and other related Acts, passed by the Legislature of the Province of Ontario. It is vested in a Municipal Council, consisting of the Mayor and four members forming the Board of Control (all five being elected annually by the citizens at large) and eighteen Aldermen elected annually from the nine Wards into which the City is divided (two Aldermen being elected from each Ward). The Council, as a whole, is the legislative

body of the Municipality and carries on its legislative work through **Standing Committees,** viz.: Committee on Works, Committee on Property, Committee on Parks and Exhibitions, and Committee on Legislation. The general duties of all the Committees of the Council are to report to the Council from time to time, whenever desired by the Council and as often as the interests of the City may require, on all matters connected with the duties imposed on them respectively, and to recommend such action by the Council in relation thereto as may be deemed necessary: To examine all accounts connected with the discharge of their duties, and if approved to recommend same for payment. **The Board of Control** is the executive body and as such is responsible for the preparation of the annual Estimates or Budget and subject to the approval of Council, the regulation and supervision of all matters connected with expenditure, revenue and investments, the sale, renting and leasing of any property belonging to the Corporation, except lands upon the Island, the administration of the Fire Department and the Municipal Abattoir, the awarding of contracts, arrangements for receptions and entertainments of a public character under the direction of the Council, the appointment of officials, the carrying on of public works authorized by the Council, and

the general administration of the affairs of the City, except as to the Department of Education and Police, the first being under the control of a Board of Education, consisting of eighteen members, two elected from each of the nine wards into which the City is divided, and two members appointed by the Separate School Board to represent Separate School supporters in certain matters, and the latter under a Board of Commissioners of Police, consisting of the Mayor for the time being, one County Court Judge and one Magistrate.

The Local Board of Health of the City of Toronto consists of the Mayor, the Medical Officer of Health and three resident ratepayers appointed annually by the Council at its first meeting in every year. The Board functions under authority of the Public Health Act, Revised Statutes of Ontario, 1937, Chapter 299.

COURT OF REVISION

W. Assheton Smith, Commissioner.

The Assessment Rolls are returned and the Court sits to hear appeals against the general assessment of the City upon the following days:

Ward	Date for Return of Roll	Date of Commencing Court of Revision
1	March 7th	April 7th
2	April 4th	May 5th
3	April 25th	June 2nd
4	May 16th	June 23rd
5	June 13th	July 17th
6	July 11th	August 18th
7	July 25th	September 2nd
8	August 8th	September 17th
9	September 5th	October 14th

Appeals must be filed within ten days after the return of the Assessment Roll, as stated on the notice of assessment, and must be lodged with the Assessment Commissioner.

The Court also sits from time to time throughout the year to hear appeals in respect of local improvement works, vacancy allowances and business tax adjustments.

The City Clerk is the Clerk of the Court.

AREA OF CITY AND STATISTICS RE STREETS, SEWAGE DISPOSAL, WATER WORKS, ETC., AS OF DECEMBER 31st, 1940

Area of City, not including portion of land covered by water, is about 35 square miles.

MILEAGE OF STREETS, ETC.:

Streets	575.887
Paved Roadways (94.6%)	544.702

Average Daily Consumption per Capita in City (based upon population of 648,098), 1940	106

BIRTHS, MARRIAGES AND DEATHS

All births and marriages must be registered at the City Clerk's Office, Room 21A ground floor, City Hall, within thirty days from the occurrence thereof.

Telephone Ad. 7171, Local 18, for general information respecting Vital Statistics.

Physicians in attendance are required to send in notices of births; parents or occupants of dwellings where births occur are required to register same.

Deaths must be registered at the City Clerk's Office, Room 21A, City Hall, or at any police station, before a permit to bury can be issued.

Physicians in attendance are required to certify as to deaths.

Neglect or failure to send in notices in either case renders parties liable to a fine not exceeding ten dollars and costs.

Vital Statistics for Ten Years

Year	Births	Marriages	Deaths
1940	11,371	9,629	7,755
1939	10,553	8,057	7,450
1938	10,875	7,084	7,339
1937	10,425	6,890	7,468
1936	10,826	6,491	7,478
1935	11,012	6,445	7,150
1934	11,141	6,262	6,835
1933	11,805	5,487	7,184
1932	12,709	5,649	7,238
1931	13,320	6,224	7,474

Births, Marriages and Deaths—continued

Marriage License Branch

Marriage Licenses issued during office hours at Room 21, ground floor, City Hall, west side.

Telephone Ad. 7171, Local 17.

The number of Marriage Licenses issued by the City Clerk in 1940 was 8,450.

Unless a marriage is solemnized within three months from the date of issue of the Marriage License, the License lapses without any provision for an extension of time. No rebate or refund of the fee for a Marriage License is permissible in any circumstances.

A Birth Certificate or other evidence filed with an application for a Marriage License is not returnable.

When neither applicant has his or her usual place of abode in the Province of Ontario, the Assistant Provincial Secretary, Parliament Buildings, Toronto, must be communicated with respecting the necessary evidence required in such cases: or with respect to special authorization.

Compliance with certain regulations must be made in the case of an applicant who is divorced and the divorce took place outside the Dominion of Canada; a copy of such regulations may be obtained from the Assistant Provincial Secretary, Parliament Buildings, Toronto.

DEPARTMENT OF STREET CLEANING

The Department of Street Cleaning was organized on December 17th, 1888, for the purpose of developing a system for the regular collection and disposal of ashes and household waste material, and the cleaning of public streets.

The services now performed by the Department embrace the cleaning of public thoroughfares, the collection and disposal of ashes and household waste material, the cleaning of catch basins, the oiling of unimproved roadways and the removal of snow.

For collection purposes the area of the city is divided into 25 districts, which are again subdivided into 3 sections, thus permitting a twice-weekly collection to all parts of the city.

200 vehicles are engaged regularly in the collection services, and during 1940 277,000 tons of ashes and 130,000 tons of garbage were collected. The cost of this service amounts to 7c. per collection call, or $7.80 per building per year. There is an average of 3.07 tons of refuse removed from each building annually.

All garbage and combustible waste material is disposed of by incineration at three high-temperature garbage disposal plants. The first incinerator was erected in 1917 on the Don Road-

Department of Street Cleaning—continued

way, at Dundas Street. This plant has a capacity of 300 tons per day. In 1923 the second plant was constructed on Wellington Street, near Niagara Street. The capacity of this plant is 400 tons per day. The above plants are manually operated, that is, the material is received on the charging floor, then drawn into the furnaces by hand labour. The Symes Road Incinerator, which was placed in operation in 1934, is the crane-operated type, that is, the material is dumped into a receiving pit, then lifted by two clam-bucket cranes, which discharge the garbage directly into the furnaces.

There are 575 miles of streets, 543 of which are paved and receive regular street cleaning services. During the summer season of 1940, 110,000 cubic yards of litter were removed from the streets, while 8,500 cubic yards of cleanings were removed from the catch basins located on these thoroughfares. Six motor flushers are used nightly in the downtown area and on main thoroughfares, to augment the regular street cleaning service.

DEPARTMENT OF PUBLIC HEALTH

The Administrative offices of the Department of Public Health are located on the Third Floor, City Hall; telephone, Adelaide 7171.

DISTRICT OFFICES

The Divisions of Medical Services and Public Health Nursing discharge their functions of city-wide health services through 8 District Offices, each under the joint direction of a District Medical Officer and District Superintendent of Nurses. District Offices are located strategically from west to east over the City as follows:

Runnymede—354 Keele St.....JU. 8959
Parkdale—53 Argyle St.....ME. 5709
Hillcrest—643 Markham St.....ME. 8035
Yorkville—135 Davenport Rd.....KI. 4369
University—408 Huron St.....RA. 3116
Moss Park—18 Gifford St.....MI. 8681
Riverdale—281 Broadview Ave.....HA. 2185
Scarboro—299 Main St.....GR. 1144

DEPARTMENT OF PUBLIC HEALTH HEALTH STATISTICS

Toronto's record for 1940 reflects a gratifying response to the various measures of preventive practice and control designed to improve the health of the city.

Department of Public Health—continued

This City may now pride itself on the outstanding achievement of having attained, for the first time, a year entirely free from the occurrence of a single resident case of Diphtheria. This enviable record for a city of 648,000 population crowns the persistent efforts directed by the Department of Public Health towards the eradication of this preventable disease, which in the years 1929 and 1930 was responsible for more than 1,000 cases with 64 and 54 fatalities respectively. The year 1940 also marks the third occasion without a single death from the disease, thereby repeating the performance of 1934 and 1937. The elimination of Diphtheria in Toronto exemplifies what can be accomplished when the medical profession and public health forces of the municipality unite against a common enemy.

That mothers are receiving an excellent standard of prenatal and obstetrical service is evidenced by the fall in both infant and maternal mortality during 1940 to levels unequalled by any former experience. Deaths among infants under one year of age, in proportion to 1,000 living births declined from 46.5 to 41.3 representing an improvement of over 11 per cent. in a single year. Toronto has been successful in effecting a 45 per cent. saving in infant lives during the past ten years.

Department of Public Health—continued

Deaths among mothers from causes associated with childbirth corresponded to a rate of only 3.3 deaths per 1,000 confinements as against 5.4 a year ago. The nearest approach to this figure is that of 3.8 recorded in 1938. Excluding deaths of non-resident mothers hospitalized in Toronto, the residue of 25 deaths is comparatively small from the viewpoint of numerical importance.

Toronto continues to occupy an enviable position among cities of the continent with regard to its control of tuberculosis. Mortality from this disease reached a new low of 29.8 deaths per 100,000 unit of population in 1940, bettering fractionally the rate of 30.0 a year ago, which in turn represented a substantial improvement of 18 per cent. over the previous low record of 36.9 set in 1937. Prevailing rates are 50 per cent. lower than they were just ten years ago, and in consequence the disease has been relegated to seventh place among the principal causes of death.

Among other noteworthy features revealed by the statistics for 1940 is the exceptionally low incidence of the major communicable diseases, including Typhoid and Paratyphoid Fever, Measles, Whooping Cough and Diphtheria. Collectively, the morbidity figures for these diseases totalled 1,905 cases as compared with 12,250 the year previous, with resulting fatalities

dropping from 39 to 9—the lowest point as yet experienced for this group. Typhoid Fever was reduced to a new minimum of 12 cases, while only 9 persons were stricken with the dreaded disease, Poliomyelitis. No fatalities occurred due to Measles. The complete absence of Smallpox is noted since 1932, and not a single death has occurred from this cause in Toronto during the past thirteen years.

The other side of the health picture relates chiefly to causes lying more or less beyond the realm of direct public health control. Postponement of deaths in earlier life by preventive measures naturally results in the survival of a much greater proportion of persons to the higher age brackets where mortality from such causes as diseases of the heart, arteries, kidneys and cancer become concentrated. During 1940 the causes enumerated above claimed an increase of 403 deaths and are now credited with practically 70 per cent. of all mortality occurring at ages upwards of 50 years.

It is worthy of note that the city's birth rate shows an upward trend. New arrivals in 1940 totalled 11,154, equivalent to a rate of 17.3 per 1,000 population. Respective figures for 1939 were 10,260 and 15.8. The rate for 1940 is the highest since 1933 when it was 18.2.

Generally speaking, the statistics briefly referred to in the foregoing resumé will serve to indicate the encouraging measure of success attending the efforts of health conservation in the City of Toronto. In the creation of this satisfactory record for 1940 the splendid assistance rendered by the private physicians, health and welfare groups, and the citizens themselves is gratefully acknowledged by the Department of Public Health.

CIVIC AMBULANCES

Telephone, Adelaide 6465-6466

The Civic Ambulance Service, under the control of the Department of Public Health, is located at the Coroners' Building, 86 Lombard Street.

A limited service is provided, restricted in scope to answering calls of an emergent nature such as street accidents and similar happenings; the transportation of non-emergent cases to a public hospital when the hospital maintenance of such person is to be at public expense, i.e., a City Order case, and the transportation of all cases of communicable disease. Separate ambulances and staffs are provided for the respective services mentioned.

All calls of whatever nature should be directed to the Coroners' Building, telephone, Adelaide

6465, where the attendant on duty will allocate the call if it is within the above categories, or otherwise advise the enquirer if service cannot be given.

In case of accident, the patient, if of adult age and conscious, has the right to select the hospital or other destination within the City to which it is desired to be taken. In the case of children or those in an unconscious condition, a physician, if one is in attendance at the scene of accident, will undertake direction of the ambulance. In the absence of a physician, this duty then devolves on any police officer present, and failing either of these authorities the ambulance crew will then take responsibility for removal of the injured person.

In cases where a person is found dead and a physician has not been in immediate attendance, the Chief Coroner's office, 86 Lombard Street—telephone, Adelaide 6466—should be called without delay.

PUBLIC HOSPITALS

The Public Hospitals in the City are located as follows:

Toronto General Hospital, 101 College St.
St. Michael's Hospital, 30 Bond St.

Department of Public Health—continued

Hospital for Sick Children, 67 College St.

Western Hospital, 399 Bathurst St.

St. Joseph's Hospital, 1830 Queen St. W.

Women's College Hospital, 74 Grenville St.

Salvation Army Grace Hospital, 133 Bloor St. East.

Toronto East General Hospital, Coxwell and Sammon Avenues (East York).

Mt. Sinai Hospital, 100 Yorkville Ave.

Wellesley Hospital, Homewood Place.

Lockwood Clinic Hospital, 300 Bloor St. E.

Mothercraft Centre, 84 Wellesley St.

OTHER HOSPITALS AND INSTITUTIONS

Riverdale Isolation Hospital, Gerrard St. East and St. Matthews Road.

Toronto Hospital for Consumptives, Buttonwood Avenue (Mt. Dennis).

I.O.D.E. Preventorium, Sheldrake Blvd.

Hospital for Incurables, 130 Dunn Ave.

Our Lady of Mercy Hospital, 38 Sunnyside Ave.

Home for Incurable Children, 278 Bloor St. E.

Ontario Hospital for Insane, 999 Queen St. W.

Psychiatric Hospital, Surrey Place.

Department of Public Health—continued

Hillcrest Convalescent Hospital, Bathurst St. and Davenport Rd.

Christie Street Hospital for Soldiers, 352-390 Christie St.

St. John's Convalescent Hospital, Newtonbrook, Ont.

*This rate includes the Provincial War Tax of one mill on the dollar.

**Rate made possible by Provincial Government subsidy of one mill: a further subsidy of one-half mill after rate was struck by Council, reduced rate to 34.75 mills.

†Provincial Government subsidy of 1 mill included.

††This rate includes Provincial Government subsidy of one mill.

Assessment of City—continued

Note—The amount of taxes raised as stated herein may not balance with the amount found by calculating the mill rate on the assessment for any given year. The difference arises from the fact that a portion of the assessment is liable for school rates only.

PAYMENT OF TAXES

Taxes for 1941 are payable as follows:

1st Instalment, May 9th.
2nd Instalment, July 9th.
3rd Instalment, September 9th.

PARKS DEPARTMENT

Parks and Playgrounds

The park system of Toronto, comprising 2,361,536 acres, had its beginning in the dedication by the late Jesse Ketchum to the Village of Yorkville in 1856 of the area known as Ketchum Park, and which came into possession of the City upon the annexation of Yorkville to the City in 1883. Since that time many park areas have been deeded to the City by the Crown, or donated by private citizens, and in all 1,006.85 acres have been so acquired. Much of this development has taken place in the past twenty-five years, during which 909.44 acres of land have been acquired.

One hundred and three park and playground areas are comprised in the park system, thirty-eight children's supervised playgrounds are operated within the system, in addition to which twenty-eight are operated by the Parks Department upon school grounds during the summer season. During the winter season fifty-seven recreation centres are operated, forty-eight of which are conducted in school buildings and three in rented gymnasia.

The zoological collections at Riverdale Park, High Park and the Island comprise a great variety of domestic and foreign animals and birds. The animals number 235 in 86 different

species; birds comprising 166 species number 643. Many of the most valuable of these have been donated to the City.

The trees upon the streets of the City, as well as those in the parks, are under the care of the Parks Department. During the past year 225 trees were planted upon the streets; 1,764 were removed; and 15,918 were pruned.

The Exhibition Buildings and Grounds, in which the Canadian National Exhibition is held annually, are maintained by the City through the Parks Department.

Parks Department—continued

RECREATION FEATURES

Comprised in the parks are the following recreation features:—

Equipped playgrounds (including 17 wading pools)	66
Baseball fields	74
Cricket fields	14
Football fields	41
Lacrosse courts	5
Horseshow pitches (47 courts)	6
Tennis courts	309
Bowling greens	38
Skating rinks	85
Hockey rinks	76
Toboggan slides	15
Bathing stations	8
Boating stations	2
Fieldhouses	60
Running tracks	3
Picnic areas (accommodation for over 100 persons each)	109

TORONTO MUNICIPAL ABATTOIR

This service was inaugurated August 4th, 1914, as a public slaughtering establishment with cold storage (high and low temperature) accommodation. It is essentially to the greatest extent a public health institution, and while the fact of its existence may perhaps at times have had a tendency to regulate the price of meats, the purpose of its establishment was to concentrate the slaughtering of food animals within the City, so that the evils attendant upon the operation of small slaughter houses might be eliminated.

Slaughter House Records, 1940

	Number Slaughtered
Cattle	25,648
Calves	15,017
Sheep and Lambs	19,786
Hogs	22,245
Total	82,696

Earl E. Hunt, Abattoir Commissioner.

Office

Foot of Tecumseth St., Toronto 2.
Telephone, Waverley 9214.

DEPARTMENT OF BUILDINGS

The Department of Buildings has charge of the following:

1. The examination of Plans, and issuing of permits for all buildings.
2. The licensing of Passenger Elevators.
3. The licensing of Dry Cleaning, and Spotting and Stain Removing establishments.
4. The preparation of plans and specifications and the supervision of erection of Civic Buildings.
5. The inspection and supervision of all Signs, Canopies and Fire Escapes over Public property.

During the past year 47 licenses were issued for the operation of Dry Cleaning Plants and 289 licenses were issued for Spotting and Stain Removing Establishments including Fur Cleaning Firms.

Licenses were granted for the operation of 1,276 Passenger Elevators.

BUILDING STATISTICS FOR TEN YEARS

Year	Permits Issued	Buildings Erected	Value of Buildings Erected
1931	6,832	8,646	$21,995,313
1932	4,969	5,686	8,013,550

1938	4,875	5,645	8,494,340
1939	5,667	6,280	10,285,707
1940	5,146	5,935	10,592,743

LOCAL IMPROVEMENT WORKS

When the owners of property on any street or lane desire a pavement, sidewalk, curbing, grading, sewer or water main, or when the property owners in any locality desire the opening, widening, extension or diversion of a street or lane, application should be made to the Department of Works for a form of petition to the Council for the work or improvement. The petition issued by the Department contains an estimate of the cost of the work and the estimated rate of assessment per foot frontage. When the petition has been signed by two-thirds in number of the owners representing at least one-half in value of the lots liable to be specially assessed, the Council, with the approval of the Ontario Municipal Board, may proceed with the work and subsequently assess the cost against the lots abutting directly on the work.

If it is found, when the petition is presented, that the names of two-thirds in number of the property owners representing at least one-half in value of the property have not been obtained, and if the Council nevertheless determines, on the recommendation of the Commissioner of Works, that the work is necessary and in the public interest, it may direct, with the approval of the Ontario Municipal Board, that the work be proceeded with unless a majority of the interested

property owners, representing at least one-half in value of the property to be assessed, petition against it within one month after the Council has given notice of its intention to proceed therewith. The foregoing procedure, which is called the "initiative" procedure, may also be followed on the recommendation of the Commissioner of Works, or on the joint recommendation of the Commissioners of Works and Assessment in the case of certain works, when there has been no petition for the improvement.

Under authority of section 8 of the Local Improvement Act, the Council, if it deems a work necessary in the public interest, may proceed therewith, with the approval of the Ontario Municipal Board, notwithstanding any petition to the Council opposed thereto. The vote of the Council to proceed with the work must be a two-thirds vote of the whole Council.

Where the work is a trunk sewer, trunk water main, or the opening, widening, extending, diverting or grading of a street, the Council may by a three-fourths vote of the whole Council assume part of the cost and assess part of the cost against abutting lands and also lands benefited by the work.

WATER RATES

Payment of Rates

Water rates are payable as follows:

GENERAL RATES

District No. 1—Being all that part of the City east of the Don River; rates payable half-yearly on or before each last day of April and October.

District No. 2—From the Don River to and including Yonge Street; rates payable half-yearly on or before each last day of May and November.

District No. 3—From, but not including, Yonge Street, to and including Bathurst Street; rates payable half-yearly on or before each last day of January and July.

District No. 4—From, but not including, Bathurst Street to and including Dufferin Street; rates payable half-yearly on or before each last day of February and August.

District No. 5—From, but not including Dufferin Street to west City limits; rates payable half-yearly on or before each last day of March and September.

METER RATES

Payable quarterly, on or before January 31st, April 30th, July 31st, and October 31st.

Water Rates—continued

A discount of 10 per cent. is allowed upon all rates, except for water supplied on the Island, or found being used without permission, when payment is made on or before the foregoing dates.

SCHEDULE "A"—GENERAL RATES

Scale of general water rates for dwellings, $2.00 per annum, the lowest rate, for four rooms and under, and 65c per room for five rooms and over.

Boarding and lodging-houses shall be charged $1.00 per room.

All conveniences in connection with dwelling and other houses are chargeable in addition to the foregoing rates, and when two or more families occupy one house, the conveniences shall be charged additional rates for each family.

SPECIAL AND ADDITIONAL RATES

	Per Annum
Basins or other taps with sinks:	
In private dwellings, each	$ 1.25
In other than private dwellings, each	2.50
Baths:	
In private dwellings, each	1.25
In other than private dwellings, each	2.50

Water Rates—continued

	Per Annum
Urinals:	
In private dwellings, self-acting, each.	$ 1.50
Other than self-acting, each	6.25
In other than private dwellings, self-acting, each	3.00
Other than self-acting, each	12.50
Water Closets:	
In private dwellings, self-closing, each	2.00
Other than self-closing, each	6.50
In other than private dwellings, self-closing, each	4.00
Other than self-closing, each	13.00
W.C's used in common by two or more houses shall be charged for at the rate of one to each house.	
Laundry:	
Private:	
For pair of tubs	1.25
For single additional tubs	.75
Other than private:	
For each tub	1.25
Employing 3 hands and under	5.00
Employing 4 or 5 hands	8.00
Employing 6 or 7 hands	11.00
Employing over 7 hands	13.00

Water Rates—continued

Stables:	Per Annum
Private:	
For each horse	$ 1.25
Each vehicle	.75
For automobiles, each	.75
Other than private:	
For each horse	2.00
Each vehicle	1.25
For automobiles, each	1.25
Lawns and Gardens:	
500 square feet and under, per season.	1.00
Above 500 and up to 1,000 per season.	1.25
Each additional 1,000 or portion thereof, per season	.50
Lawn sprinklers or other devices not held by hand, in addition to above	5.00

SCHEDULE "B"—METER RATES

13¾ cents per 1,000 gallons, except that no meter rate shall be less than $2.00 net per quarter year.

For water supplied for use outside the City limits, 37½ cents per 1,000 gallons. Minimum net rate per quarter, $4.00.

SCHEDULE "C"—ISLAND RATES

The rates for the season shall be the same as are charged under Schedule "A" hereof, except

that the minimum rates for domestic purposes per family, shall be $6.25.

The rates for water supplied by meter measurement shall be 18¾ cents per 1,000 gallons, except that the minimum amount payable by persons using meters shall be $6.25.

SPECIAL RATES

Bakers, Barbers, Building and Construction Works, Caretakers in Buildings, Churches, Fire Protection, Flushing drains, Forges, Fountains, Gas Engines, Milk Vats, Pavement or Roadway Construction, Restaurants, Steam Engines, Schools (other than public), Trenches, Warehouses, Washing Windows, Washing Machines, or other Water Motors, etc.

INFORMATION

Full information may be obtained regarding water rates at Room 103, Main Floor; and for metered accounts, Room 304, Third Floor, City Hall.

FIRE DEPARTMENT

The Fire Department consists of one Chief of Department, one Deputy Chief, one Platoon Chief, one Secretary, one Physician, one Accountant, one Record Clerk, one Stenographer, fourteen District Chiefs, one Superintendent Fire Alarm Telegraph, three Linemen, four Telephone Operators, four Fire Alarm Telegraph Operators, fifty Captains, sixty-seven Lieutenants, one Mechanical Superintendent, three Helper Mechanics, five hundred and one (all grades) Firemen, six Fire Prevention Inspectors, and one Janitor, making a total of six hundred and sixty-three officers and men.

The Department operates under the two-platoon system, operating in two shifts—8 a.m. to 6 p.m., and 6 p.m. to 8 a.m., changing every Sunday, one crew working full twenty-four hours. In addition, each member is allowed one day off each week and fifteen days' annual vacation with pay. If in service over ten years the annual vacation is three weeks. Each member is supplied with uniform clothing by the City.

There is in the Department in service:

21 800-gallon motor pumpers.
1 400-gallon motor pump.
7 Motor aerial turn-table hook and ladder trucks and portable water towers combined.

Fire Department—continued

11 Motor city service ladder trucks.
10 Combination hose motor trucks.
2 High pressure hose trucks.
1 Motor salvage truck.
2 Supply trucks.
2 Repair trucks.
1 Gasoline supply truck.
1 Fire Alarm Telegraph emergency truck.
12 Automobiles.
1 Fire Tug, capacity 1,000 imperial gallons.
70,000 feet 2½-inch fire hose.
6,650 feet 3½ inch high pressure hose.
23,000 feet 2-inch fire hose.

Cost of fire-fighting plant and equipment (exclusive of land and buildings) is $868,439.

Cost of Fire Alarm Signal plant, $271,081.

Value of buildings and land occupied by same, $1,297,798.

PENNY BANK

For Schools

Inaugurated April 1st, 1905

The Penny Bank operates in the Schools with the approval of the Board of Education. Deposits are made each Tuesday morning in the class room. Withdrawals can be made by school children at the Head Office of the Bank, corner of Orde and McCaul Streets, between the hours of 3.30 p.m. and 5 p.m., except Saturday, and by parents from 10 a.m. until 5 p.m. Banking hours on Saturdays from 10 a.m. until 12 noon.

There are over 83,000 open accounts in Toronto and suburbs with a total balance on deposit of over $570,000. About 27% of the pupils make deposits every Tuesday morning. A large number of classes have 100% of the enrolment operating accounts in the Penny Bank.

Hon. President—Colonel H. D. Lockhart Gordon, D.S.O., V.D.

President—M. A. Mackenzie, M.A., F.I.A., LL.D.

Managing Director—H. B. Scandrett.

Assistant Manager—Elizabeth Armstrong, Telephone, Adelaide 0828.

PUBLIC LIBRARIES

The management and control of the Public Libraries of the City are vested in the Toronto Public Library Board, appointed pursuant to the provisions of the Act respecting Public Libraries and Art Schools (Chap. 202, R.S.O. 1914) and composed of the Mayor of the City and eight others, three of whom are appointed by the City Council, three by the Board of Education, and two by the Separate (Catholic) School Board. The persons appointed by the City Council and the Board of Education hold office for three years, and those by the Separate School Board for two years. These members retire in rotation at the end of their respective terms on the 31st of January.

The Board holds its regular meetings on the second Tuesday of each month, and the Libraries and Finance Committee meets on the next preceding Thursday.

The Libraries are maintained by an annual appropriation from the tax rates, under legislative enactment, of an amount not to exceed fifty cents per capita of the population of the City as shown in the returns of the Assessment Department. This appropriation is obligatory, but a vote of a majority of the members of the Council present and voting the appropriation may be increased to an amount not exceeding one dollar per capita.

The Administration Offices are located in the Central Library Building, corner College and St. George Streets. Telephone (switchboard), Kingsdale 1151.

The Downtown Circulating Library is at No. 42 Adelaide Street West.

The Reference Library and the Central Circulating Library are located in the main Library building, situated at the corner of St. George and College Streets. Immediately north of this building there is a well-equipped Boys and Girls Library in the Boys and Girls House. There are seventeen Branch Libraries (including a library for the troops in training in Exhibition Park) and also Stations in eighteen Schools and Settlements. etc.

The cost of the main building at College and St. George Streets, and of the Branches on Yorkville Avenue, Queen Street West, Annette Street, Broadview Avenue, Roncesvalles Avenue, Bathurst Street and Queen Street East was met by funds provided by the late

Andrew Carnegie. Sites and buildings for the other branch libraries were secured by special appropriations from the City.

The Reference Library is open from 10 a.m. to 9.30 p.m.; the Central Circulating Library from 9 a.m. to 9 p.m.; the Downtown Branch from 8.30 a.m. to 8 p.m.; the remaining branch libraries from 2 to 9 p.m., but closing on Wednesdays. The Boys and Girls Library, on St. George Street, opens at 10 a.m. and closes at 6 p.m.

The main building includes, in addition to the administrative offices and the Reference and Circulating Divisions, the Central Reading Room, with an ample supply of the leading Canadian, British and American newspapers and magazines; the Music Library, a popular branch of the lending system; the Reference collection of the bound volumes of the Canadian, British and American patent specifications; a valuable collection of Government documents, and a Bureau of Clippings, these gathered from current periodicals for reference purposes.

In the Circulating portion of the main building are also housed the Kipling Room, with its special collection of books for boys and girls of High School age, and the John Ross Robertson Collection of engravings, prints and paintings illustra-

tive of early life in Canada (the largest and most valuable collection of Canadian prints in existence). This room is open to the public daily without charge.

LIBRARY STATISTICS, 1940

Value of Libraries, including buildings and grounds, about	$1,517,479
Adult books issued for home reading	2,566,093
Reference books used	300,782
Boys' and Girls' books used	1,343,693
Books and pamphlets added	66,995
Total number of books and pamphlets in the Libraries	635,859

CANADIAN NATIONAL EXHIBITION

Despite difficulties as great as those which confronted the founders of the Toronto Industrial Exhibition in 1879, the Canadian National Exhibition Association is pushing with vigour the plans for the holding of its sixty-third consecutive exhibition. Directorate, management and staff are convinced that in time of war Canadian agriculture, industry and social life need a rallying point—a common centre where the people of the Dominion may see for themselves what Canada is accomplishing and the great part her sons and daughters are playing in the struggle for democracy—and they are united in the determination that the Canadian National Exhibition shall fulfil its patriotic destiny by providing that place of meeting.

Inured as the Canadian National Exhibition is to war's exigencies, its precursor was in a sense born as the result of war; for the Niagara Agricultural Society was founded in 1792 by United Empire Loyalists who after the American Revolution sought new homes under the Union Jack in the Niagara Peninsula. Even as we do to-day, these hardy pioneers found they needed a rallying point for their mutual aid and comfort and so, a century and a half ago, they laid the foundations of what was to become the world's largest annual exposition.

Canadian National Exhibition—continued

This society in its turn was the outgrowth of numerous "bees" held by the settlers in the district to perform all kinds of work. Governor John Graves Simcoe, first governor of Upper Canada, was keenly interested in the society, subscribing liberally to the prize money and encouraging it in many ways.

The Niagara Agricultural Society and those societies which grew from it lived a somewhat precarious existence for some time. In 1801 it was encouraged by premiums and prizes offered for the cultivation of hemp in the Canadas by "the Society instituted in London for the encouragement of Arts, Manufactures and Commerce"; but for many years following the war of 1812 the society languished, reviving in 1820 to hold a "cattle show" in York (Toronto). Government aid was lacking until 1830 when an Act was passed granting an annuity of $400.00 to agricultural societies.

The next step was the formation of a Provincial Agricultural Society in 1846. This society held an annual fair each year in a different community. This was the order of procedure from 1846 to 1878, when a group of farseeing men, convinced that this peripatetic fair was not in the best interests of anybody, persuaded the City of Toronto to sponsor the erection of splendid,

permanent exhibition buildings in the hope of having the fair held annually in this city.

The 1878 Exhibition was a marked success, but in spite of this the society decided to hold the 1879 fair in a different city. Then it was that the decisive step was made—a permanent annual exhibition was to be held in Toronto independent of the Provincial Agricultural Society. Thus was born in the face of great opposition the Toronto Industrial Exhibition. This Exhibition grew and flourished for many years until in 1912 a Dominion charter was granted and its name was changed to the Canadian National Exhibition. Its growth has been phenomenal, the total investment in plant and equipment being in excess of $21,000,000.00 with an area of 350 acres.

The Board of Directors consists of the mayor of the city and seven members of the city council together with eight representatives of manufacturing interests and eight representatives of agriculture, all of whom are elected at the annual meeting from among the membership of the association, which latter comprises one hundred and fifty organizations of various kinds.

The Minister of Agriculture of the Province of Ontario is also (ex-officio) a member of the Board. In addition, the past presidents of the association are directors.

Canadian National Exhibition—continued

GROUNDS AND BUILDINGS

Exhibition Park occupies a site of some 350 acres and is fortunate in having a waterfront extending for a mile and a half along the shore of Lake Ontario. A breakwater extending the full length of this waterfront, forms a protected regatta course where a wide variety of aquatic events may be held in a location ideal for competitor and onlooker alike.

From the waterfront the ground rises slightly in terraces revealing Exhibition Park, beautifully landscaped, with graceful shade trees, fitting setting for the many stately structures it contains. Built of stone, steel and concrete, these buildings are gems of exposition architecture and are indeed worthy of the high standard of interest and excellence attained by the exhibits displayed in them. Among these magnificent buildings—many of which cost in excess of a million dollars—are the Automotive Building, the Engineering and Electrical Building, the Coliseum, which with its annexes and the magnificent Horse Palace, contains the greatest floor space of any exhibition building in the world; the Food Products Building, the International Pavilion and the National Industries Building.

At the outbreak of war, which occurred during the 1939 Exhibition, the complete plant

and equipment of the Canadian National Exhibition was offered to the Department of National Defence to use in any way deemed necessary to the furtherance of Canada's war effort. This offer was gratefully accepted and at the conclusion of the 1939 Exhibition many of the fine, weatherproof, permanent buildings were transformed into barracks and stores for the Canadian Active Service Forces and Royal Canadian Air Force. These buildings, which included the Automotive Salon, Horse Palace and Coliseum provided warm, healthful accommodation for thousands of members of Canada's fighting services during the fall, winter and spring months.

With the exception of part of the vast Coliseum which was permanently established as the manning depot of the Royal Canadian Air Force, the Canadian government preferred not to use Exhibition's facilities during the summer months for two reasons: first, the troops went under canvas, and second, it was realized what a splendid job the Canadian National Exhibition could do in demonstrating and promoting Canada's and the Empire's war work by holding the 1940 Exhibition.

Thus encouraged the management decided to proceed with plans for 1940 despite some

opposition in certain uninformed quarters, and the public acclaim which greeted the 1940 Exhibition fully justified the management in its courage, optimism and faith. This year has proved conclusively what an important part the Canadian National Exhibition plays in the life of the Dominion. It demonstrated the magnitude of Canada's part in the present war, disseminating this information all over the continent; it brought to the multitudes who thronged the park, patriotic stimulus and pride of Empire in a dozen different ways; and it provided much needed entertainment, recreation and amusement in a most difficult time.

Thus is the Canadian National Exhibition fulfilling its destiny not only as the world's largest annual exposition but as an inspiration to the people of Canada, the British Empire and ultimately—the world.

ROYAL AGRICULTURAL WINTER FAIR ASSOCIATION OF CANADA

The Royal Agricultural Winter Fair Association of Canada is a voluntary body, organized in 1919, for the purpose of promoting the higher branches of Agriculture in the Dominion, notably live stock, through the competitive stimulus of an annual exhibition of farm products. Its annual Fair occupies an enviable position among agricultural exhibitions on the American Continent, and in its combined wide scope, representative inclusiveness, variety of exhibits, and high standards is undoubtedly unique in any country.

Included in the membership of the Association are representatives of all existing live stock and other agricultural organizations in Canada, as well as of the Dominion and Provincial Governments and the City of Toronto.

At the outbreak of War in September, 1939, the Directors of the Royal readily agreed to the suspension of the Fair so that the extensive buildings, especially the Coliseum and its two fine annexes, with administration offices, might be turned over to the Department of Defence in connection with the great war effort.

Whytock, King, Ont., and George Wilson, Toronto.

THE TORONTO HARBOUR COMMISSIONERS

The Toronto Harbour Commissioners, under a Special Act of the Parliament of Canada passed in 1911, were given control over the Port of Toronto. They commenced active operations in 1914, and the Harbour, at that time inadequate and relatively inaccessible, has been transformed by the Commissioners, in co-operation with the City Council and Dominion Government, into one of the most up-to-date on the Great Lakes. It can accommodate the largest vessels passing through the Welland Ship Canal, and now ranks third in cargo tonnage among Canadian Lake and Sea Ports.

In addition to deepening the Harbour and constructing approximately 47,000 lineal feet of wharves, two large waterfront industrial areas were created out of lands covered by water and non-revenue producing in 1915. These areas are served by thirty-two miles of Commissioners' railway tracks, wide paved streets and hydro-electric power at cost. There is perfect co-ordination of rail, water, air and highway transportation.

While two industrial and commercial areas in the Central and Eastern Sections have been created by the reclamation of the Harbour, 217 acres have also been reclaimed at the

The Toronto Harbour Commissioners —continued

Western Section, between Dowling Avenue and the Humber River. This area is known as Sunnyside Beach—Toronto's lakeshore playground. Here are found amusement devices, games, rides, swimming, dancing, refreshments, etc. On the beach proper is located a bathing pavilion with locker accommodation for 7,700 bathers at one time; adjoining this is a swimming pool 300 feet long by 75 feet wide, with a capacity of 750,000 gallons.

The area of the lands sold, leased or occupied is now in excess of 500 acres, on which are located varied establishments with investments of approximately $39,000,000.00 in land, buildings and equipment. In addition, during 1940, the Commissioners leased approximately thirty-three acres of Harbour land at a nominal rental to the Department of National Defence, upon which is now located Equipment Depot No. 1 of The Commonwealth Air Training Scheme. Around 400-acres are still available for lease or sale.

Another important part of the development work was the construction of Toronto's Cross-Town Waterfront highway which extends from the Humber River on the west to Leslie Street on the east, a distance of seven miles, with a minimum pavement width of fifty feet. The

The Toronto Harbour Commissioners —continued

foresight in constructing this highway, made possible by the waterfront development, is more amply demonstrated each year by the many thousands of motor cars using it daily. It provides not only a fine entrance to the City from the west but also an easy means of access to down-town Toronto for tourists and the motoring public generally.

In order to finance this large scale expansion and development, the Commissioners were authorized to borrow money by the issue of bonds, guaranteed as to principal and interest by the City. Over the period of years the position of the Commissioners has become more and more favourable, and in 1940, the general tax revenue received by the City from Harbour properties, which in 1915 were covered by water, is in excess of the amount the City was called upon to pay under its guarantee for the year 1940, by more than $200,000.

Interest and debt retirement charges 1940		$ 1,165,210.96
Operating Surplus T.H.C.	$514,033.09	
Capital Receipts, T.H.C.	91,258.40	
		605,291.49
Balance paid by the City of Toronto under its Guarantee		$ 559,919.47
Taxes received by the City from occupied Harbour properties in 1940 totalled	$774,497.63	
Local Improvement taxes paid by the Harbour Commissioners in 1940 totalled	112,154.00	
		$886,651.63
Assessed value of occupied Harbour properties, 1940		$21,895,315.00
Assessed value of all Harbour properties, 1912		1,976,804.00
Increase due to development of land covered by water and non-revenue producing in 1915		$19,918,511.00

The Toronto Harbour Commissioners —continued

The following are the general and local improvement taxes paid by the Harbour Commissioners on Harbour lands:—

Year	General	Local Improvement	Total
1912 to 1934..	$132,318	$1,221,237	$1,353,555
1935..	16,202	183,654	199,856
1936..	40,982	160,689	201,671
1937..	28,566	158,556	187,122
1938..	25,844	148,975	174,819
1939..	27,081	128,954	156,035
1940..	25,493	112,154	137,647
Total.	$296,486	$2,114,219	$2,410,705

On account of bond refinancing the difference between the financing of 1936 and that of 1937 resulted in an annual saving of $285,302.44.

The Citizens of Toronto have benefited greatly by the tremendous increase during the last few years of waterborne traffic into and out of the City directly resulting from the improved Harbour facilities. The following sets forth a comparative tonnage for the years 1921-1940:—

The Toronto Harbour Commissioners —continued

Year	Tons	Year	Tons
1921.....	248,363	1935.....	3,020,132
1931.....	2,121,066	1936.....	3,382,858
1932.....	2,270,448	1937.....	3,703,881
1933.....	2,500,100	1938.....	3,801,025
1934.....	3,125,144	1939.....	3,589,561
		1940.....	4,762,292

The oil and coal and coke industries furnish a concrete example of the benefits arising to the citizens from the Harbour Development. Many oil companies have located on Harbour property using extensive dockage space, while coal and coke are now stored for many months during the year on waterfront property.

In connection with the latter, the facilities afforded not only guarantee an entire winter's supply of fuel for use in the City, regardless of conditions that might develop elsewhere during the fall and winter months, but also the cost of coal and coke to the consumer has been greatly reduced. Dealers are now able to purchase their whole year's supply at low summer rates; it can be economically carried by water transport, cheaply unloaded directly from vessels to storage, and used as needed.

The Toronto Harbour Commissioners —continued

The following table shows the tremendous increase in oil, coal and coke tonnage during the past few years and indicates the advantage taken by these two industries of the Harbour Development:—

Year	Petroleum Products Tons	Coal & Coke Tons
1920	38,402	155,839
1930	449,219	225,992
1935	705,079	1,565,264
1936	726,470	1,631,603
1937	837,937	1,726,966
1938	786,545	1,574,700
1939	838,406	1,761,131
1940	1,365,722	2,224,881

The general taxes received by the City from industries located on the lands created by the Harbour Development, the benefits arising from the ever-increasing waterborne trade of the Harbour and the impetus given thereby to the commerce of the City, apart from the saving to the citizens by reason of low cost transportation, are tangible results of the development. These, as a whole, cannot be rated in mere dollars and cents but they are, nevertheless, of incalculable value to the City at large.

The Toronto Harbour Commissioners —continued

In 1937, the City Council decided to construct two municipal airports, one a combined airport and seaplane base on Toronto Island and the other an all-weather airport at Malton, and requested the Harbour Commissioners to construct and operate them for and at the expense of the City.

The Island Airport, officially named by the City Council "Port George VI, Toronto Island Airport" has been mainly reclaimed from the inner harbour and lake. It is an "all-way" field comprising 177 acres, practically all sodded. The Airport has three flightways 3,000 feet long and 500 feet wide, all of which have been lighted; two have a paved runway 150 feet wide for their full length. The Airport is equipped with a modern Administration Building, lighting system, hangar, seaplane ramp, low dock and passenger float.

In 1940 permission was granted to the Royal Norwegian Government to use the Airport as a training centre for its Air Force. A Norwegian Camp "Little Norway" has also been located on Harbour lands in the vicinity, at the foot of Bathurst Street.

At Malton, 1,444 acres were acquired for airport and zoning purposes, the objective being

The Toronto Harbour Commissioners —continued

to use the zone-controlled areas for industrial development in connection with the manufacture of aircraft, subject to the regulations of the Department of Transport as to height of structures, etc. The National Steel Car Corporation Limited purchased some 108 acres, on which a large aircraft plant is now in operation. In addition to this, a large aircraft plant has been constructed by Canadian Associated Aircraft Limited on a 15-acre site purchased by this Company. The Trans-Canada Air Lines have leased 2½ acres adjoining the landing field and have erected thereon a hangar.

Work on the Malton Airport proper (which contains 693 acres) commenced in August, 1937, and in August, 1938 the first Trans-Canada airplane landed at the Airport. Provision has been made for flightways covering eight points of the compass 1,000 ft. in width and 9,000 ft. long, with permissible paved runways 5,000 ft. in length and upwards. At the present time three flightways have been constructed 3,000 ft. long and 500 ft. wide—all are paved 150 feet wide for the distance of 3,000 feet. The Airport is equipped with a modern Administration Building completed in 1939, lighting system, meteorological offices, radio, etc.

The Toronto Harbour Commissioners —continued

Control of the Airport proper was taken over by the Department of Transport on November 1st, 1938. The Airport is now temporarily under the control of the Department of Munitions and Supply and towards the end of 1939, in connection with The Commonwealth Air Training Scheme, the Department of National Defence established two training schools, an Elementary Flying Training School and an Air Observers School, at the Airport. These schools are located on the easterly side of the Airport.

This Airport is on the main route of the Trans-Canada Air Lines and mail and express planes are now flying on a regular daily schedule through Toronto from Moncton, Montreal, Windsor, London, Winnipeg and Vancouver.

The Malton Airport has been officially named "Bishop Field, Toronto Airport, Malton," in honour and recognition of the war-time service of Air Marshal William A. Bishop, V.C.

TORONTO TRANSPORTATION COMMISSION

The Toronto Transportation Commission was incorporated by an Act of the Ontario Legislature assented to June 4th, 1920. The Act of Incorporation is 10-11 Geo. V, 1920, Chap. 144, which may be briefly summarized as follows:

(1) The Commission consists of three members, appointed by the City Council to serve for three years, and to be paid such salary or other remunerations as may be fixed by Council.

(2) No member of the City Council is eligible for appointment as a member of the Commission.

(3) The Commission is entrusted with the control, maintenance, operation and management of:

(a) The Toronto Railway Company upon its acquisition by the City.

(b) The Civic Lines.

(c) Any other street railways that the City may from time to time acquire.

(4) The City may at any time entrust to the Commission the construction, control, maintenance, operation and management of lines of motor buses, or subways, or of tubes, or of any method of underground or local overhead transportation (This was done by By-law No. 8564.)

Toronto Transportation Commission —continued

(5) To consider generally all matters relating to local transportation in the City of Toronto.

(6) To construct, control, maintain, operate and manage new lines of street railway.

(7) To fix such tolls and fares so that the revenue of the Commission shall be sufficient to make all transportation facilities under its control and management self-sustaining after providing for such maintenance, renewals, depreciation and debt charges as it shall think proper.

(8) To requisition the City for money necessary to carry out its powers and duties. But nothing contained in the Act of Incorporation shall divest the Council of its authority with reference to providing money for such purposes.

(9) The Commission to furnish the City annually an Operating and Financial Statement, and keep its books at all times open for inspection by the Audit Department of the City.

The fares chargeable by the Commission are as follows:

Fares for Adults:

Four tickets for 25 cents; cash fare, 10 cents.

Toronto Transportation Commission —continued

Fares for Children:

(a) Infants "in-arms", free. Children, not over 51 inches in height: Cash, three cents; ten tickets for 25 cents.

(b) School Children's tickets: School Children's tickets are sold at the rate of seven for 25 cents, and are for the use of all school children under 16 years of age. The tickets are good only going to and from school, between the hours of 8 a.m. and 4.30 p.m., and are not valid on Saturdays, Sundays or on other days when schools are closed.

Free transportation privileges on the street cars are provided to the members of the Amputations Association of the Great War and to blind people in Toronto receiving passes through the Canadian National Institute for the Blind.

Free transfers are issued between all street cars within the City limits and between street cars and "feeder" buses within the City limits.

To protect the City's huge investment and its rights to control public transportation in its streets, the City authorized the Commission's acquirement of control of the principal motor coach routes radiating from the City and of

Toronto Transportation Commission —continued

motor coach sight-seeing services in the City. These services and other special motor coach and motor launch services are operated by the Commission under the name of Gray Coach Lines, Limited. With its routes extending from the United States border at Niagara Falls and Buffalo to Toronto and thence to Muskoka Lakes, North Bay and other northern Ontario resorts, Gray Coach Lines' motor coach services have made Toronto the hub of highway travel and have developed a profitable tourist business for Toronto. Complete information in reference to the services of Gray Coach Lines and connecting motor coach services to all points in Canada and the United States is available at Toronto Bus Terminal, 602 Bay Street, or by telephoning ADelaide 4221.

Several municipalities adjacent to Toronto have arranged to have their local public transportation services managed by the Toronto Transportation Commission. This arrangement is advantageous to these municipalities and does not impose any financial responsibility on Toronto or on the Commission. These include street railway services in York Township, Weston, and the municipalities between Toronto and Richmond Hill on north Yonge Street; and

Toronto Transportation Commission —continued

bus services in York Township, Forest Hill Village, Leaside and East York Township.

The Toronto Island Ferries, now owned by the City of Toronto, have been managed by the Transportation Commission since February 1927. Passenger and freight service is supplied by a fleet of ferry boats and freight craft between the mainland and the three Islands—Centre Island, Hanlan's Point and Ward's Island. The one-way trip to any of these points is made in approximately fifteen minutes.

The ferry service is managed by the Commission under an agreement with the City. The finances of this service are entirely separate from those of the other service managed by the Commission under its Act of Incorporation.

The rates of fare are the same on the ferries as on the City street car system, the same tickets being good on either service, but no transfer tickets are issued between the ferries and the street cars.

This is the twenty-first year of the Commission's operation of the various transportation services. In the essential quality of Safety the Commission has a notable record. Well over five billions of passengers have travelled on

Toronto Transportation Commission —continued

the street cars, buses, motor coaches, ferries and motor launches operated by the Commission. Not one passenger has been fatally injured.

The Commission operates 907 electric street cars and 74 electric service cars. The street cars travel a distance of approximately 23,000,000 miles in service during a year. The 284 buses and motor coaches travel 7,500,000 miles yearly. The fleet of five ferry boats carry nearly 2,000,000 passengers during the Summer. Approximately 3,100 people are regularly employed by the Commission.

The Commissioners are as follows:

Wm. C. McBrien, Chairman.

Wm. Croft, Vice-Chairman.

W. G. Russell, Commissioner.

H. C. Patten, General Manager.

C. A. Ward, Secretary.

Offices: 35 Yonge Street, Telephone, Waverley 7611.

TORONTO HYDRO-ELECTRIC SYSTEM

The Toronto Hydro-Electric System is owned by the City of Toronto, and is operated for it by the Toronto Electric Commissioners.

The Toronto Electric Commissioners, created under Provincial Statutes (1 Geo. V, Chap. 119, Sec. 6), are empowered to carry out the provisions of the Public Utilities Act of Ontario (R.S.O., 1927, Chap. 249) in so far as such Act applies to the City of Toronto.

The present members and officers are:

Commissioners

Joseph Gibbons, Chairman.
Kenneth A. Christie, K.C. Vice-Chairman.
Frederick J. Conboy, D.D.S. (Mayor).

Officers

E. M. Ashworth, General Manager.
H. J. MacTavish, Secretary.

Offices

14 Carlton Street: Telephone, Ad. 2261.

The Toronto Hydro-Electric System is one of the largest municipally-owned distribution systems in the world, and distributes power at unusually low rates.

Toronto Hydro-Electric System —continued

Alternating Current Light and Power Rates

(This Schedule does not include rates for service outside the City Limits.)

Residence Service

Alternating Current—25 Cycles—120 Volts.

Monthly Demand Charge:

Three cents per 100 square feet floor area, per month. (Minimum 1,000 sq. ft. Maximum 3,000 sq. ft.)

Energy Charge:

One and eight-tenths cents per Kilowatt-hour up to equivalent of 3 Kilowatt-hours per 100 sq. ft. floor area charged.

One cent per Kilowatt-hour for all additional consumption.

Prompt payment discount 10%. Minimum monthly bill 75c. (net).

Commercial Lighting Service

Alternating Current—25 Cycles—120 Volts. Billing Demand—by Meter or 100% Installed Capacity.

Three cents per Kilowatt-hour for equivalent of first 90 hours' monthly use of Billing Demand.

Toronto Hydro-Electric System —continued

One cent per Kilowatt-hour for equivalent of 90 hours' monthly use of Billing Demand. One-third cent per Kilowatt-hour for all additional consumption.

Prompt payment discount 10%.

Minimum monthly charge 75c. (net) per Kilowatt of Billing Demand. Minimum monthly bill 75c. (net.)

Power Service

Alternating Current—25 Cycles—3 Phase 550 Volts. Billing Demand—by Meter or 100% Installed Capacity. Alternating Current—25 Cycles—3 Phase—208 Volts (See Note).

Monthly Demand Charge:

One dollar and ten cents per Kilowatt for the first 7½ Kilowatts of Billing Demand.

Ninety cents per Kilowatt for all additional Billing Demand.

Energy Charge:

Two cents per Kilowatt-hour for equivalent of the first 50 hours' monthly use of the Billing Demand.

One cent per Kilowatt-hour for equivalent of the second 50 hours' monthly use of the Billing Demand.

One-third cent per Kilowatt-hour for equivalent of the next 300 hours' monthly use of the Billing Demand.

Toronto Hydro-Electric System —continued

One-sixth cent per Killowatt-hour for all additional consumption.

Prompt payment discount 10%.

NOTE—Alternating Current 25 Cycles—3 Phase—208 Volts Service is supplied in areas where 4 wire A.C. network is installed.

Direct Current Service is supplied in a restricted down town area only.

Rates for Direct Current and special classes of service, such as Flat Rate Water Heaters, Hall Lighting, Sign Lighting, etc., may be obtained on application.

The following statistics, based on the operations during 1940 are of interest.

Kilowatt-hours sold	1,207,000,000
Peak load	379,542 H.P.
Total Revenue	$14,023,000.00*
Number of consumers at Dec. 31, 1940	199,437
Total System-owned Assets at Dec. 31, 1940	$50,250,000.00*
Net bonded debt at Dec. 31, 1940	$9,051,628.59
System-owned Assets exceed liabilities by	$38,500,000.00*
Equity in H.E.P.C. Sinking Fund	$17,661,429.52

TORONTO OLD AGE PENSIONS BOARD

(Appointed under Old Age Pensions Act, Ontario, R.S.O. 1937, Chapter 314)

The Board consists of five persons; three appointed by the Province and two by the Municipality.

Its duty is to receive all applications for Old Age Pensions and Blind Pensions made by residents of the City of Toronto; and forward them, together with their recommendations, to the Old Age Pensions Commission of Ontario.

MEMBERS OF THE BOARD

Provincial Appointees:

Arnold Ivey, Chairman.
Robert Ferguson
(vacancy not filled)

Municipal Appointees:

Ald. C. M. Carrie, Vice-Chairman.
Zeph Hilton

Secretary's Office

Stewart Building, 149 College Street, Toronto.
Telephone, Waverley 1082.

The actual number of Toronto residents receiving Old Age Pensions at December 31,

Toronto Old Age Pensions Board—continued

1940 was 12,046. The amount paid out in Pensions during 1940 was $2,580,065.97.

At December 31, 1940, 269 persons in Toronto were receiving Blind Pensions, and the amount paid on their behalf totalled $59,934.52.

The City is required to provide office space, staff, etc., and these for administration purposes are attached to the Department of Public Welfare.

MOTHERS' ALLOWANCES TORONTO BOARD

(Appointed in pursuance of the Mothers' Allowances Act, R.S.O., 1937, Chap. 313.)

The Board consists of five persons; three appointed by the Province and two by the Municipality.

Its functions are to receive and consider applications for allowances under the Act made by residents of the City of Toronto and to recommend to the Ontario Mothers' Allowances Commission the payment of allowances to those considered eligible.

A monthly allowance may be paid towards the dependent children of a mother with at least one child under sixteen years of age in her care, who is

(a) a widow, (b) or a mother with a totally and permanently incapacitated husband, (c) or a deserted mother, whose husband has not been heard of for at least three years, (d) or a foster mother, who is married or unmarried and has resident with her one or more orphan children and has not adequate means to care properly for them without the assistance of an allowance. In all cases the applicant must be a British subject by birth or naturalization or is the widow or wife of a British subject and has resided in the Province of Ontario for at least two years.

Mothers' Allowances Toronto Board —continued

The Members of the Toronto Board are as follows:

Provincial Appointees

Mr. W. O. McTaggart, Chairman.

Mrs. Angus Gordon, Vice-Chairman.

(vacancy not filled)

Municipal Appointees

Mrs. G. D. Kirkpatrick.

Mr. John Dillon.

Secretary's Office

Stewart Building, 149 College Street, Toronto.
Telephone, Waverley 1082.

Number of beneficiaries on Toronto Pay List, December 31st, 1940	2,308
Number of beneficiaries on Toronto Pay List part of year and later eliminated	542
Total	2,850

THE BOARD OF TRADE OF THE CITY OF TORONTO

The Board of Trade of the City of Toronto was organized in 1844 and incorporated by an Act of the Legislature of the late Province of Canada in 1845.

The principal objects of the Board are:

(a) To promote and/or support such measures as, upon due consideration, are deemed calculated to advance and render prosperous the lawful trade and commerce and to foster the economic and social welfare of the City of Toronto in particular and of the Province of Ontario and of the Dominion of Canada in general.

(b) To promote the establishment and maintenance of uniformity in the business of its members and those dealing with them.

(c) To adjust, settle and determine controversies and misunderstandings between persons engaged in trade.

(d) To advance in all lawful ways the commercial interests of the members of the Board generally and to secure the advantages to be obtained by mutual co-operation.

The Board of Trade of the City of Toronto —continued

(e) To stimulate in such way as may be determined from time to time social intercourse among the members of the Board.

The Board is one of the largest commercial organizations in the British Empire and functions through a Council of nineteen elected members and a number of Committees, the principal of which are Insurance, Legislation, Northern Ontario, Public Relations, Social Problems, Taxation, Transportation and Customs, and Waterway and Power Development. The Board also operates fourteen Trade and Professional Branches, namely, Air Conditioning Industries, Book Publishers, British Empire Overseas, Dairy, Engineering, Fuel Dock, Funeral Directors, Grain and Grain Products, Lumbermen, Motion Picture, Oil Heating, Produce, Provision Trade and Toronto Laundryowners' Exchange, and has affiliated with it the Fuel Protection Association. Each Trade Branch and affiliated organization is self-governing in matters affecting only its own trade or profession, except when the support of the Board as a whole is desired, at which time recommendations are submitted for the approval of the Council of the Board.

The Board has direct representation on the Advisory Vocational Committee of the Board of

The Board of Trade of the City of Toronto —continued

Education, Canadian National Exhibition Association, Civic Zoning Committee, Committee on Revision of Toronto Building By-Law, Maurice Cody Research Fellowships and Scholarships Committee, Federation for Community Service, Eastern Committee on Grain Standards, Grain Appeal Tribunal, Ontario Safety League, Smoke Control Association, Toronto Harbour Commission, Toronto Industrial Commission and Traffic Advisory Board.

Commodious Dining and Lounge Rooms and well-equipped offices are maintained for the benefit of the members and for the prosecution of the work of the Board.

The Board of Trade Club, open to members of the Board of Trade, meets weekly on Mondays at 5.30 p.m. for dinner meetings, from October 1st to April 30th.

The primary objects of the Club are:

(a) to promote good fellowship amongst members of the Board of Trade;

(b) to educate members to a fuller realization of their responsibilities as members of the Board of Trade;

(c) to pave the way to a better understanding of the City's social and economic needs; and

The Board of Trade of the City of Toronto —continued

(d) to make members better citizens of the Dominion of Canada and the Commonwealth of British Nations.

The Young Men's Section comprises young men between the ages of eighteen and thirty. The Section meets every three weeks, on Tuesdays, at 6.00 p.m. for dinner meetings, from October 1st to April 30th. The members are granted limited privileges in the Board of Trade.

The objects of the Young Men's Section are:

(a) to educate members to a better understanding of the importance—in civic and national life—of the Board of Trade and the Chamber of Commerce movement; (b) to co-operate whenever and however possible in the varied activities of the Board of Trade of the City of Toronto; (c) to enable the young business and professional men of the city to study and to co-operate towards the solution of current national and local problems; (d) to encourage and assist members to study, under competent direction, subjects of value in all phases of business; (e) to promote good fellowship amongst the young business and professional men of Toronto who are eligible for membership.

At the offices of the Board of Trade inquiries from all parts of Canada and throughout the

The Board of Trade of the City of Toronto —continued

world are received and dealt with. Consultation privileges are available to members upon matters pertaining to business. All phases of trade development and protection, from local to world-wide scope come under the review of the Board.

TORONTO CONVENTION AND TOURIST ASSOCIATION INCORPORATED

This Association was organized in the year 1926 for the purpose of increasing tourist traffic and securing Conventions for the City of Toronto.

Officers

Hon. President, Fred. J. Conboy, D.D.S. (Mayor).

President, Charles Q. Ellis.

Vice-Presidents, P. Kirby Hunt and J. C. Porter.

Manager, T. H. R. McNally.

Secretary-Treasurer, J. H. Simundson.

Address—Rooms 108-109, 37 Bloor Street West. Telephones, Midway 9874-5.

This Association is governed by an executive committee appointed from its elected Directorate, and has become the recognized channel of community enterprise for the promotion of the visitor industry. Under its direction the advertising of the City is carried on. During the summer months it maintains Toronto's official tourist information office on Lake Shore Boulevard. For the purpose of representing the City in the competitive convention and tourist markets of the continent, this organization has since its inception been allotted a small grant from civic revenue.

TORONTO INDUSTRIAL COMMISSION

The Toronto Industrial Commission was incorporated by Letters Patent under the Ontario Companies Act on 28th of December, 1928, and began active operations on the 13th of March, 1929. The Commission's objects are to secure industries for, and aid industries in, the City of Toronto and surrounding territory and to give publicity to the advantages of the Toronto area for business and manufacturing purposes.

It maintains comprehensive data concerning available industrial properties, accepts no commissions or fees, preserves confidential relations with its correspondents, invites suggestions as to names of companies which might advantageously locate in the Toronto area, and has a staff of qualified engineers in industrial, economic and statistical research.

During 1940 the Commission co-operated in the establishment of sixteen industrial developments in the Toronto area. Thirteen existing Toronto industries in 1940 were assisted in securing larger or more suitable manufacturing space, new lines to manufacture and given data on questions of obscure sources of materials, taxation and numerous other subjects.

Since the Commission began operations twelve years ago it has co-operated with a total

Toronto Industrial Commission—continued

of 187 industrial companies which have established in Toronto and suburbs. They have invested $9,987,000 in plant and equipment, are employing 6,500 people, and are occupying more than 2,765,000 square feet of floor space. This floor area is represented by a single plant 100 feet wide and extending from Yonge Street to the Humber River in Toronto.

In addition to the "direct" employment by the new industries, their operations have resulted in substantial additional employment in other Toronto concerns supplying a wide variety of production materials and services to the new companies and their employees. It has been conservatively estimated that this "indirect" employment represents over 6,000 additional persons.

The employment provided is equal to the total industrial employment in many of Canada's smaller cities. Their coming has added "another" city to Toronto.

These new companies paid taxes of $44,327 in the City of Toronto in 1940 and purchased electric power and light to the value of $84,481.

Eighty-five per cent. of the employment went to Toronto citizens.

The Commission has given assistance to many existing Toronto industries, co-oper-

ating with them in expansion plans, in securing new lines to manufacture, and information on numerous other subjects.

The Commission had a part in submitting Toronto's facilities to the British and Canadian authorities for the manufacture of aircraft and munitions.

The Commission is the official Industrial Commission for the City of Toronto. Its Board of Directors is made up of representatives nominated by the City Council, the Board of Trade of the City of Toronto, the Toronto Branch of the Canadian Manufacturers' Association, the Toronto Hydro-Electric System, the Toronto Transportation Commission, the Toronto Harbour Commissioners and the Canadian National Exhibition Association.

TORONTO AND YORK ROADS COMMISSION

(Appointed under 5 Geo. V., Chap. 17)

This Commission consists of five persons, two appointed by the County Council of York and two appointed by the City of Toronto, and a fifth to be appointed by the four elected members or the Lieut-Governor in Council. Its duty is the improvement and maintenance of main suburban roads to be determined upon by the Commission. The cost is to be borne by the City, the County and the Ontario Government in the following proportions: 25 per cent. by the City, 25 per cent. by the County, and 50 per cent. by the Ontario Government. The members and officers of the Commission are as follows:

COMMISSIONERS

R. R. Leslie, Chairman, 72 Hillcrest Drive, Toronto.
E. G. Farr, Vice-Chairman, Weston, Ontario.
J. Ray Price, Weston, Ontario.
John B. Laidlaw, 625 Avenue Road, Toronto.
Charles F. Mavety, Kleinburg, Ontario.

R. W. Phillips, Secretary.
W. W. Gardhouse, Treasurer.
H. C. Rose, Chief Engineer.
Offices—County Building, 57 Adelaide St. E., Toronto. Telephone, Waverley 3851.

THE ONTARIO MUNICIPAL ASSOCIATION

This organization, composed of delegates appointed by different municipalities throughout the Province of Ontario, has been formed for the purpose of discussing important municipal topics and of prompting desirable municipal legislation. The delegates are either members or officers of municipal councils.

The annual meetings are held in Toronto, usually during Exhibition time.

THE TORONTO HUMANE SOCIETY

The Toronto Humane Society was incorporated in the year 1887 and from that date has continuously carried on its aims and objects, namely, the protection of animals and birds from being cruelly treated.

Humane Education of children is one of the most vital departments of the Society's work, as it is a well-known fact that a child who is taught kindness to animals will not go far wrong in his behaviour towards his fellow-men.

The Headquarters of the Society is situated at 11 St. Albans Street. It operates the City Pound and performs the duties of Dog Catching for the City.

Its records for the year 1940 show that its motorcars responded to 24,915 calls sent in by citizens and these cars travelled 136,396 miles. 7,492 emergency calls were responded to. 1,237 complaints were sent into the Society by citizens regarding cruelty to animals which were investigated.

Constant inspection is maintained over the conditions under which animals for human consumption are handled and killed. During 1940 this entailed the examination of 109,939 cattle, sheep, swine and poultry. The transportation of food animals and birds is frequently carried on with great cruelty and it is an important part

The Toronto Humane Society—continued

of the Society's work to keep constant watch on those engaged in this work and thousands of pamphlets are distributed to drivers of cattle trucks and those engaged in transportation of animals, giving advice as to the most humane way of doing the work.

The Society gives a twenty-four hour service, 365 days of the year for the relief of suffering animals.

SOCIAL SERVICES OF TORONTO

Every community has its problems of social break-down. As the community grows the problems of indigence, dependency and illness grow with it. With the increasing complexity of modern city life, health and welfare services have become a recognized responsibility of civic government. Private philanthropic effort continues to care for groups and individuals who are not served by public organizations. Public assistance is concerned with individuals as units of society and tries to supply those in need with a similar or uniform equipment necessary to life; while private agencies try to regard individuals as unique personalities, and aim at increasing, in each individual, the inner capacity of living well.

Because of the pressure of events during the past few years there has been a marked trend toward greater co-ordination of both public and private effort in an endeavour to eliminate overlapping and make for more effective and economic service in the interests of people served. The first and simplest mode of co-operation was in the direction of eliminating overlapping, through a system of registration provided by the Social Service Index. Then followed the attempt to

unite all voluntary agencies in a common appeal for the support of the public, through community chests or federations for community service. Of these, three were formed in Toronto: Federation for Community Service, Federation of Catholic Charities and the United Jewish Welfare Fund. Seventy important agencies are now included in these federations, but a number still continue their own programmes outside the federation group. Out of the federations there developed naturally the demand for co-operation in policy and action which led, in 1937, to the formation of a Welfare Council of Toronto and District. Within this Council any form of organized effort, whether public or private, is intended to have its place, and thus the Council can serve as a veritable parliament of agencies, constantly deliberating and acting in the interests of greater well-being, utilizing the best thought of the community and focusing its goodwill and its resources with the minimum of waste or friction.

A classified list of all the welfare services in Toronto with a brief statement of their purpose is available in the Directory of Welfare Resources issued by the Welfare Council. The co-ordinating agencies are as follows:

TORONTO AND THE TELEPHONE

The telephone needs of Toronto and the adjoining communities are served by the Bell Telephone Company of Canada.

The Bell Telephone Company of Canada was incorporated in 1880 and, in Toronto, absorbed the Toronto Telephone Despatch Company, which had been serving Toronto citizens since 1879.

At the start of the present year the Toronto exchange has grown to one of almost 224,000 instruments—the largest by far of any exchange in Canada.

More long distance calls are placed from Toronto on the average day than from any city in the Dominion. Of the world's metropolitan centres—those of more than 750,000 population—Toronto leads in its proportion of residence telephones per hundred inhabitants. Thus, Toronto holds the spotlight in Canada as regards telephone development and usage.

This is the Sixty-first year of the Bell Telephone Company of Canada and the company is proud of its record of service to the citizens of Toronto.

Valuable information about the City itself may be found in the Blue Pages of the Telephone Directory.

Toronto and the Telephone—continued

Executive officers of the Company are C. F. Sise, President; P. A. McFarlane, J. H. Brace, F. Johnson, Vice-Presidents; H. G. Young, General Manager, Western Area, Toronto, and E. A. Rolph, Toronto Manager.

Office: 76 Adelaide Street West, Telephone Waverley 3911.

Weather Records—continued
1840-1940

Warmest day, 9th July, 1936. Mean temperature 91.6 degrees.

Highest registered temperature 105.0 degrees on the 9th July, 1936.

Coldest day, 8th February, 1934. Mean temperature of 16.0 degrees below zero.

Lowest registered temperature, 26.5 degrees below zero on 10th January, 1859.

Warmest year, 1921, mean temperature, 49.9 degrees.

Coldest year, 1875, mean temperature, 40.6.

Heaviest day rain, 3.88 inches on 27th July, 1897.

Heaviest day snow, 16.2 inches on March 28th, 1876.

Heaviest fall of snow in any winter, 123.5 inches in 1869-70.

Least fall of snow in any winter, 25.7 inches in 1932-33.

THE CANADIAN RED CROSS SOCIETY

International Red Cross Movement.

The Red Cross movement rests upon international treaties and conventions, the first of which was signed at Geneva in 1863. The underlying idea of the movement was the securing of immunity from attack for all persons engaged in relief of the sick and wounded in battle. The scope of the movement has been gradually extended so that now the Red Cross is recognized as a symbol of humanitarian action of many kinds in all parts of the world, and its protection is extended both to the departments of the armed forces charged with the care of the sick, wounded, and prisoners of war in the Navy, Army and Air Force, and also to the voluntary workers who are auxiliary to these forces. Under the Covenant of the League of Nations, of which Canada is a signatory, the services of the Red Cross were extended to include "the promotion of health, the prevention of disease, and the mitigation of suffering both in peace and war."

Canadian Red Cross Society

The Canadian Red Cross Society holds its Charter under the Act of Incorporation passed by the Parliament of Canada in 1909, which Charter was amended by the Dominion Parliament in 1919

The Canadian Red Cross Society—continued

to cover the enlarged scope of its work as defined in the Covenant of the League of Nations.

The Central Council, which is the governing agent of the Society, is a representative body composed of two members elected by each Provincial Division, and of fifteen "members-at-large", elected by the eighteen Provincial representatives. Any person may become a member of the Society by paying an annual subscription of $1 to a Local Branch.

The Canadian Red Cross Society at the end of 1940 was organized under nine Provincial Divisions and more than 2,600 local Branches to which are attached some 10,000 auxiliary groups. In the Toronto Branch there are over 900 working groups containing a membership of 34,000 women. The Society is served by a mighty army of volunteer workers with a small force of salaried officials by whom the voluntary service of the Society is co-ordinated.

Organization

Since the war began the Canadian Red Cross has made two appeals to the people of Canada—one in November, 1939, and the other in September, 1940—which have raised a joint total of over $11,000,000. This money was raised through the organization of the Society throughout its 2,600

The Canadian Red Cross Society—continued

local Branches, augmented by special campaign committees of business men and women canvassers.

Peace Work

The peacetime budget of the Society, amounting to about $800,000, is included in the appeal, and after deducting the amount needed for its peacetime budget, each Branch is permitted to retain in its own hands fifty per cent. of the balance for the purchase of materials to be made up by voluntary women workers, into surgical and hospital supplies and comforts for men in the army, navy and air force.

War Activities

The other fifty per cent. of war funds is turned over to the National Executive which has undertaken such major expenditures as that of the Base Hospital at Taplow with 600 beds, completely furnished and equipped by the Canadian Red Cross Society at a cost of $750,000, and handed over to the Department of National Defence to be staffed and maintained by the Royal Canadian Army Medical Corps. All costs of the Red Cross transportation services and warehouses, both in Canada and overseas, and administration of national offices both in Canada and Great Britain, are defrayed by the Head Office.

The costs of distribution of comforts and extra equipment for the Canadian Army Medical

Corps hospitals both in Canada and overseas, and of emergency supplies to be used in the event of disasters in the Dominion of Canada have also been defrayed out of Headquarters' funds, and the purchase of the necessary foods and packing cases required weekly for ten thousand prisoners of war parcels has also been undertaken by the National Executive under a special committee appointed for the purpose, of which Mr. N. C. Urquhart of Toronto is Chairman.

The last complete statistics of the Society (1939) show the cost of administration and of campaign and publicity to be 5.5% of the expenditures of the Society, covering expenditures both in Canada and overseas.

Audits

All monies entrusted to the Canadian Red Cross Society are audited annually first in the local Branch; secondly, in the consolidated accounts of the Provincial Divisions; thirdly, in the consolidated accounts presented by the National Executive; and lastly, by the Department of National Defence with which the Canadian Red Cross Society is required to deposit its annual financial statements.

Blood Donors

A new development of Red Cross work is the Blood Donor Service under the direction of

The Canadian Red Cross Society—continued

Dr. C. H. Best, of the Department of Physiological Hygiene, University of Toronto, who was assisted in the earlier stages of his research by small grants from the Toronto Branch of the Red Cross and by the organization of a clinic of voluntary blood donors by Mr. A. G. Northway and Mr. G. R. Sproat of Toronto. This project has now been reorganized and greatly enlarged, and is a co-operative service maintained by the Federal and Provincial Governments and the Canadian Red Cross Society.

Dr. Best's discovery that blood 'plasma' can be reduced to a powder and kept indefinitely for use in surgical, medical and neurological cases is recognized as a major discovery both for war and peace.

NATIONAL OFFICERS

His Excellency, the Governor-General of Canada, President.

Norman Sommerville, Esq., K.C., Toronto, Chairman of Central Council, and Executive Committee.

Jackson Dodds, Esq., O.B.E., General Manager, Bank of Montreal, Vice-Chairman.
